To Whom it May Concern:

I am writing this letter of recommendation on behalf of Brad Powell and his entire team of craftsmen. They completed my new home in the fall of 2007, meeting all of my expectations and specifications for my rustic mountain retreat. Given my working career's background, Brad's level of detail and professionalism was a must for my project.

I spent the majority of my working career with Grumman Aerospace Company. In the early 60's, I was assigned to the Apollo Moon program as the Quality Supervisor for the Lunar Lander by NASA. In 1966 I was transferred to the Kennedy Space Center, FL and supervised an 85-125 member quality control team. During the next ten years our team placed 12 men on the moon and returned them all, safely to earth. After this experience I was appointed as Director of Quality Control and Safety for Flight Operations with Grumman and worked in this capacity for another 17 years, and totaled 42 years with the company. Being knowledgeable about teamwork, I was very pleased with Brad's network and their professional job execution on my project.

I would recommend Brad Powell and his team to anyone that is considering commencing any construction project.

Sincerely,

Danny Strauss

Dear Brad:

We would like to thank you and your team for the great job you have done handling our design build projects. Working with your team on a concept plan and then through the complete design of several homes has been a pain-free experience.

After much thought and consideration, we hired your team to construct these homes from excavation of the lot to a fully finished turn-key home. The quality, detail, and craftsmanship of these homes have been second to none. It is quite evident that you have put a lot of time into training your crews, and they take great pride in the homes they build.

After building a custom home in the past where the architect was not related to the contractor that we hired to build the home, I can say having both services completed by the same family of companies is the way to go. This decision gave us the assurance that everyone was on the same page from the very beginning, and that there was not going to be any finger pointing between the architect, contractor, or their sub contractors.

It would be my pleasure to recommend Mark West's architectural services and your contractor services anytime.

Thank you again, and we wish you much continued success.

Sincerely yours,

George Creech

Dear Brad:

All of us at Fall Creek Land Company would like to sincerely thank the Powell Group and Westworks Design for helping grow our developments into thriving communities. As a developer it's imperative to jumpstart a new project with a sense of community, and the design-build expertise of your collaboration has accomplished this with great success.

The direct collaboration provided by your design-build approach has made cost effectiveness and maintaining high quality control a reality. This has allowed us to construct homes that are beautiful, well constructed, and feature the high-end amenities that today's buyers demand.

The spec homes you have completed for us provide a cohesive style that integrate naturally into the landscape and set the tone for everyone to follow. With the continued growth of the community, I'm pleased to see that our customers have embraced the characteristics of your designs and have incorporated them into the custom homes you continue to build.

I highly recommend the collaborative services of West-Powell to anyone looking for a quality custom home solution. I look forward to our future ventures and thank you for contributions to Fall Creek Land Company.

Sincerely yours,

Todd Black
